NEAIR 35TH ANNUAL CONFERENCE **NOVEMBER 1 – 4, 2008** THE WESTIN PROVIDENCE

1 West Exchange Street • Providence, RI 02903 • 401.598.8000

Dear NEAIR Colleagues,

Welcome to Providence and the 35th Annual NEAIR Conference!

The 2008 Conference Planning Team, led by Program Chair, Cherry Danielson; Local Arrangements Chair, Cate Rowan; Associate Program Chair, Leon Hill; Pre-conference Workshop Coordinator, Steve Thorpe; and Vendor Coordinator, Liz Deignan has put countless hours into this year's program - organizing, coordinating and planning, right down to the smallest detail. This marvelously talented team has put together a wonderful program for you. I would like to take this opportunity to thank them on behalf of NEAIR for sharing their time and talents with us. I would also like to thank Beth Simpson, our dedicated and talented administrative assistant. Beth has been invaluable in this year's conference planning process and has been immensely helpful to me and the team.

The success of the conference is now in your hands as both conference attendees and presenters. We each need to engage actively in everything that the conference has to offer. I trust that you will enjoy this year's theme "A Culture of Evidence: IR Support, Initiative, and Leadership" and I know that you will find the speakers, sessions, and networking to be positive experiences.

What can you do over the next 4 days? O Attend sessions. O Present thought provoking material. O Ask penetrating questions. O Launch new ideas. O Challenge old assumptions. O Network with colleagues. O Take time to relax, refresh, renew, reenergize. O Continue the NEAIR tradition of extending a welcoming hand of friendship to conference newcomers or if you are new to NEAIR, introduce yourself to an "old-timer." O Spend time with vendors. O Enjoy the entertainment. O Explore Providence. But most important of all, have a good time!

NEAIR is a wonderful organization that is made up of talented professionals such as you. It has been my pleasure to serve as your president this year. If there is anything that I can do to make your conference experience enjoyable, please stop me and ask. I extend to you my best wishes for a great conference and an enjoyable visit to Providence.

Sincerely,

Denise A. Krallman NEAIR President 2007-2008

In Memory of Larry W. Metzger 1948 – 2008

This fall we lost a true data champion with the passing of Larry Metzger, Ithaca College's Dean of Enrollment Planning and past NEAIR Secretary and President.

Larry believed strongly in NEAIR and worked hard to further our goals. He served on the Steering Committee as secretary (1987-89) and later as NEAIR president-elect, president, and past president (1990-93) "His loss will certainly be felt among both the Ithaca College and NEAIR communities," said Michael Middaugh, NEAIR Past President. "I, personally, will miss his infectious wit, ready smile and above all, his wise outlook on life."

Some of the more seasoned NEAIR members will remember the wonderful parties Larry hosted at the end of each conference day back in the 80s and early 90s. He thoroughly enjoyed meeting his IR colleagues and learning about their work and their lives. The get-togethers were always very well attended --valuable networking opportunities supplemented with Larry's excellent homemade wine. Larry's openness and generosity of spirit suffused these parties, and most guests took some of that spirit home when they left the conference. Larry was also one of the founding members of the Single Malt Scotch Special Interest Group, who continue to meet annually at the NEAIR conference. "He was a great guy!" said Mary Ann Coughlin, NEAIR Past President. "I always remember him as warm and welcoming from my early days in NEAIR."

An inspiring leader and astute manager, Larry joined Ithaca College as a research assistant in 1975. In 1983, he was named Director of Institutional Research, and in 1996 he became Dean of Enrollment Planning. He was instrumental in shaping the College's increasingly talented and diverse student body. Larry also served as a board member during the founding period of the Independent 529 Plan, a national prepaid tuition plan.

In 2004, Larry was diagnosed with pancreatic cancer, but continued to work diligently at the College until a month before his death. His illness could not overpower his boundless energy, zest for life, and love of Ithaca College. His clear, forward thinking and determination have made a lasting impact on the College. Larry was loved and admired by everyone who worked for him. "Larry was a visionary, a data guru, an outstanding mentor, and most of all, a dear friend to me for over 20 years," said Martha Gray, Director of Institutional at Ithaca College "He will truly be missed".

NEAIR 35TH ANNUAL CONFERENCE

SATURDAY, November 1st, 2008

Conference Registration Pre-Conference Workshops Newcomers to Institutional Research, Part I This two-part workshop introduces responsibilities, content areas, and methods used in the practice of institutional research. Participants receive supplemental resources for later and have the opportunity to meet others who are new to the IR profession.

Pre-Conference Workshops	
Newcomers to Institutional Research, Part II Workshop	9:00 a.m. – 12:00 noon Waterplace II
Developing a Systematic Outcomes Assessment Plan The movement in higher education toward assessing student outcomes gained momentum in recent years, as accreditors have required assessment data and research. This workshop helps participants develop outcomes assessment plans for their institutions. Workshop	9:00 a.m. — 12:00 noon Waterplace III Mitchell Nesler SUNY Empire State College
Pivot Tables Changed My Life – They Can Change Yours, Too! Participants access typical institutional data from a student information system and an online survey using PivotTables and PivotCharts in Excel 2007 to subtotal, aggregate, and summarize data by category and sub-category. Participants discuss suggestions for presenting data and sharing interactive PivotTables and PivotCharts with the campus community.	9:00 a.m. — 12:00 noon Newport Paula Maas The College of New Jersey
Introduction to Logistic Regression This workshop is designed for institutional researchers who need to understand when and how to use logistic regression. By using a statistical package, concepts of logistic regression are explained and demonstrated. Workshop	9:00 a.m. — 12:00 noon Kent Marianne Guidos Nicholas Warcholak Pennsylvania State University
"Where do I Begin?" Analyzing and Reporting on Survey Datasets, Part II Workshop	9:00 a.m. – 12:00 noon Bristol
Sunday Lunch Break (<i>Lunch on your own</i>)	12:00 to 1:00 p.m.
Vendor Displays	12:00 to 5:00 p.m. Providence Ballroom
Posters on display for informal viewing	12:00 to 5:00 p.m. Executive Boardroom 3rd floor
Preparing for Accreditation? What Are the Issues Most regional accrediting agencies have enhanced their requirements around student learning outcomes and institutional effectiveness. The session focuses on the NEASC and Middle States standards for accreditation and the expectations of accreditors. We will not discuss standards for technical and career colleges. Workshop	1:00 – 4:00 p.m. Waterplace II Rebecca Brodigan Middlebury College Karen Froslid Jones American University
Let's do it: Available Strategies and Instruments for Assessing Student Learning in the Major Participants examine strategies and instruments for measuring student learning in the major. Institutional researchers leave the workshop better equipped to assist faculty with their department-based assessment programs and accreditation evidence. Workshop	1:00 – 4:00 p.m. Waterplace III J. Fredericks Volkwein Pennsylvania State University

SUNDAY, November 2 nd , 2008	
Qualitative Analysis Methods The workshop covers the nature and use of qualitative data for institutional research and includes examples of institutional analyses. Participants practice analytical techniques on sample data sets and discuss their results, the process, and concerns. Workshop	1:00 – 4:00 p.m. Blackstone Carol Trosset Hampshire College
Introduction to CSS (Cascading Style Sheets): Designing an IR Web Site Cascading Style Sheets are the new standard in web design. Through hands-on activities, the workshop provides a beginner's knowledge of CSS syntax while creating a sample IR homepage using Notepad. Topics include positioning, layout and web accessibility standards. Attendees must have a basic knowledge of HTML. Workshop	1:00 – 4:00 p.m. Newport Karen DeMonte University of Delaware Allison Walters University of Delaware
Out of the Drawer: Communicating Findings from Your CIRP Surveys Make your CIRP data come alive! We review examples of how CIRP survey findings inform your campus on issues such as retention, student involvement, diversity, civic engagement, and satisfaction. Workshop	1:00 – 4:00 p.m. Kent John Pryor University of California Los Angeles
Advanced SAS Techniques for Institutional Researchers The workshop demonstrates how to use ODS to send output to Excel, HTML, PDF, and RTF files. Advanced features of SAS, such as Pro sql, the Macro facility, and Proc report. Other techniques are demonstrated. Prior SAS experience is necessary. Workshop	1:00 – 4:00 p.m. Bristol Mindy Wang Catholic University of America
Automating Online and Paper Surveys with Class Climate Class Climate is Scantron's ultimate tool for survey-based evaluation in education, allowing you to conduct hundreds of surveys using a mixed on-line and paper/pencil based approach through a web server. Class Climate handles questionnaires for program of study, student services, seminars, alumni surveys, parental involvement and more. Vendor Showcase	2:15 — 2:40 p.m. Washington Daniel Raulli Scantron
Afternoon Panel /Audience Participation	
What Hast Thou WroughtLately? A Colloquium for Experienced Practitioners – This interactive session engages audiences through a conversation about how institutional research and planning offices provide value-added contributions for stakeholders. Designed for the experienced practitioner (5 years or more), participants share ideas on emerging topics and approaches (beyond the usual reports) they employ for maintaining enthusiasm and keeping their work "fresh". Panel	3:00 – 4:00 p.m. Waterplace III James Trainer Villanova University Michelle Appel University of Maryland Michael Dooris Pennsylvania State Univ. OPENING PLENARY

Dr. Marvin W. Peterson Professor Emeritus, University of Michigan, Past President AIR "Quo Vadis IR? Past Developments - Future Challenges" 5:00 – 6:15 p.m. Narragansett Ballroom

As NEAIR celebrates its 35th, it is useful to look at the larger field in which it is a key component and contributor. The development of institutional research, both in practice and as a profession,

has emerged as a critical function in higher education over the past 50 years. This talk examines that development and some of the forces on and challenges to higher education that have shaped the field. Some lessons from that interaction are then used to highlight some potential implications for the practice and the profession of institutional research and how it may be reshaped as we cope with new changes in our higher education industry and our institutions.

Reception	6:15 – 7:00 p.m. Narragansett Pre-function
Banquet and 35 th Anniversary Celebration	7:15 p.m. Narragansett Ballroom
MONDAY, November 3rd, 2008

Increasing Student Success to Improve Retention and Persistence Student success is a key predictor of retention and persistence, and as such is a primary concern for many institutions. This presentation outlines data mining techniques for understanding academic preparedness, predicting student performance, and creating a feedback loop to continually evaluate and refine your interventions with low- performing students. Vendor Showcase	3:30 – 3:55 p.m. Washington John Norton SPSS
Testing the Reliability and Validity of Student Demographic Information: Does the Method of Data Collection Influence Self-Reported Data? This study presents the steps for conducting a comprehensive evaluation of the validity and reliability of self-reported student demographic information. The study focuses on effective data collection strategies and methods to enhance the reliability/validity of self-reported data by triangulating admission data, survey data, and data warehouse information. Contributed Paper	4:10 — 5:05 p.m. Waterplace I Daniel Riehs Aideen Gleeson Jessica Greene Boston College
Graduate Writing Exam (GWE): Rolling the Last Dice to Succeed Predictive factors for student success on GWE and addresses graduation rate are identified. During the AY 2006, 1,045 students attempted the capstone exam and the debilitating success rate indicated a need to re-visit and assess GWE. Multiple regression technique identified six indicators that predict success on GWE.	4:10 — 5:05 p.m. Waterplace II Gurvinder Khaneja Passiac County Community College
Contributed Paper Responding to Accreditation: IR's Role - From Beginning to End Collaboration and communication among institutional sectors are key elements in the accreditation process. Presenters share findings from a survey distributed to members of a local IR association. The survey focused on the best practices and challenges faced by IR offices throughout their institutional and specialized accreditation processes. Workshare	4:10 – 5:05 p.m. Waterplace III Christine Goodwin Marie Mark Piyaporn Nawarat Clover Hall St. John's University Joan Gothardt New York College of Osteopathic Medicine
Assessing Institutional Effectiveness: Using the Mission Engagement Index (MEI) to Measure Progress on Mission Goals A two year Teagle Foundation grant propels new research on student outcomes and funded development of a performance indicator for assessing progress on institutional goals. The presenter analyzes the five-year study. Contributed Paper	4:10 — 5:05 p.m. Blackstone Ellen Boylan Marywood University

MONDAY, November 3 rd , 2008	
Using IPEDS Data Cutting Tool for Strategic Positioning and Competitive Advantage During this session, participants learn how to use the IPEDS data-cutting tool and how to present the information to decision makers. Examples include using data to inform	4:10 – 5:05 p.m. Kent
decision makers on the position of the institution, information about specific academic programs, and new programs in various strategic student markets. Presenters discuss the implications for enrollment management and strategic planning.	Paul Prewitt-Freilino Greg Rogers Roger Williams University
Workshare	
Follow the Yellow Brick Road: Designing and Employing a Campus Community Climate Survey to Improve Life in Kansas Rather Than the Land in Oz	4:10 – 5:05 p.m. Bristol
As one of his first actions, a new President commissioned a campus community climate survey to get the pulse of the University and to effect change. The presentation covers the survey from the concept and design phase to employing data that informs decisions and promotes positive change.	James Trainer Kathleen Nazar John Kelley Villanova University
Workshare	
Surveys and Beyond! Student success is a key predictor of retention and persistence, and as such is a primary concern for many institutions. This presentation outlines data mining techniques for understanding academic preparedness, predicting student performance, and creating a feedback loop to continually evaluate and refine your interventions with low-performing students. Vendor Showcase	4:10 — 4:35 p.m. Washington Cedric Nash Questback Boston LLC
Data with a Twist Reception	5:15 – 6:30 p.m. Providence Gallery
Formal Poster Session / Presentation of Best Visual Display	5:15 – 6:30 p.m. 3 rd floor
Facebook - Why all the fuss?	Executive Boardroom
Why should we care about Facebook? In short, because our students use it, including it as their primary communication tool. Facebook basics, tips, and IR uses are displayed. Poster	Michelle Appel University of Maryland Paula Maas The College of New Jersey
Using the Institutional Research Website to Increase Visibility and Credibility Campus Wide	Executive Boardroom
See better ways of disseminating information and building awareness through an IR website. Large paper documents such as University Fact Book, Internal Common Data Set, and the Environmental Scan can be shared electronically saving large costs and increasing efficiency within the university. Poster	Greg Rogers Paul Prewitt-Freilino Roger Williams University

MONDAY, November 3 rd , 2008	
Findings from a Survey Experiment: What Works and Who Responds	Executive Boardroom
The session presents the response rates of a web-survey experiment using a lottery- based incentive and different methods of reminder contacts plus a post-hoc analysis of the characteristics of survey respondents and non-respondents. Learn the additional avenues for further research and the practical implications. Poster	Jerold S. Laguilles Thomas J. Fleenor, Jr. Elizabeth A. Williams University of Massachusetts Amherst
Discovering and Using Peer Data from Surveys of Accepted Students	Executive Boardroom
By asking accepted applicants to indicate and rank other schools where they applied, yield patterns in each field and division are analyzed for use in academic planning.	David Vintinner Rachel Krug New York University
Poster	
SAT Scores and Demographics: Developing a Multiple Regression Model between SAT Scores and Socioeconomic Variables at Massachusetts High Schools	Executive Boardroom
Multivariate analysis confirmed a strong correlation between SES and SAT scores at Massachusetts High Schools. Parental education alone results in more than half the variation in SAT scores	Bruce Haimowitz University of Massachusetts – Boston
Poster	
Is Too Much Education, Too Much of a "Good Thing?"	Executive Boardroom
This poster presentation examines the relationship between parent educational level and student success at a moderately sized public four-year college. Results indicate that parent educational level is not linearly associated with student success. Presented are a literature review, an explanation of other statistical techniques, and the implications.	Mary Lou D'Allegro Stefanie Kerns Pennsylvania State University – Berks
Poster	
A Longitudinal Analysis of Personality Traits Related to Student Departure	Executive Boardroom
The study is a longitudinal work- in -progress that examines the relationship between students' values, attitudes, beliefs and self-concepts (based on CIRP data), and their college departure behaviors, identified as either 'transferred' or 'left with no record of transfer'.	Cristi Carson Keene State College

Assessment: One Size Does Not Fit All Newcomers to assessment often take a one- size- fits -all approach—all things can be assessed if we just did another survey or gave another test. The presentation highlights differences in types of learning outcomes and the ease with which meaningful and sustainable custom-fit assessments can be conducted.	8:30 — 9:25 a.m. Waterplace III Terra Schehr Loyola College in Maryland
Workshare Does Service Learning Lead to Civic Action? A Multilevel Analysis of Personal Commitment and Campus Culture This study employs a multilevel modeling technique using national student experience data to assess the impact of service learning on students' thoughts about civic responsibility. The research concludes that both individual involvement and an institutional commitment to service learning have significantly positive impacts on students' inclination to civic action. Contributed Paper	8:30 — 9:25 a.m. Blackstone Aideen Gleeson Boston College
Survey Design and Response Rates: Evaluations of an On-Line Survey of Student Engagement Presenters report two sources of data regarding the effects of survey design (length, appearance, and content) on respondents' reactions to a student engagement survey: individual pretest interviews with students and an experiment in response rates in which students were invited to participate in different versions of the survey. Contributed Paper	8:30 — 9:25 a.m. Kent Marne Einarson Marin Clarkberg Cornell University
Student Surveying Savvy: SAREO Shares Strategies Researchers from UMass Amherst's Student Assessment, Research and Evaluation Office (SAREO) share methods to tackle the contemporary challenge of achieving good response rates for web-based student surveys. Researchers focus on the following survey aspects: instrument length, topic salience, subject lines, incentives, and non- response. Workshare	8:30 – 9:25 a.m. Bristol Elizabeth Williams Jerold S. Laguilles Thomas J. Fleenor, Jr. University of Massachusetts Amherst Ethan A. Kolek Amherst College
Collaborative Opportunities in Institutional Research Many projects within higher education use an "open source" approach. Research about the application of these methods for collaborative institutional research is presented. Future research will be based on the feedback. NEAIR 2008 Conference Leadership

NEAIR thanks the following vendors for supporting the 2008 conference!

Gold Vendor Sponsors

Council for Aid to Education

The Council for Aid to Education (CAE) is a national nonprofit organization based in New York City. Initially established in 1952 to advance corporate support of education and to conduct policy research on higher education, today CAE is also focused on improving quality and access in higher education. The Collegiate Learning Assessment (CLA) is central to that focus, a national effort to assess the quality of undergraduate education by directly measuring student learning outcomes. Showcase Monday, 11/3 @ 3:00 pm

For more information on the CLA, please contact cla@cae.org or call 212-661-5800

National Student Clearinghouse

The National Student Clearinghouse is the largest enrollment and degree verification service in the US. A non-profit organization established by the higher education community in 1993, the Clearinghouse serves as a central repository and single point of contact for the collection and timely exchange of accurate, comprehensive enrollment, degree and certificate records on behalf of participating institutions. More than 3,200 colleges, enrolling 91% of US college students, participate in the Clearinghouse. Student loan providers, employers, student credit issuers, student health insurance providers, the US Department of Education, and others access the Clearinghouse's registry over 100 million times annually to conduct electronic student record verifications. Showcase Monday, 11/3 @11:00 am

For more information, visit www.studentclearinghouse.org or contact your Regional Director: *Pam Gilligan, Director, Northeast Region – ME, NH, VT, MA, RI, CT, NY, PR & USVI Tel: (508) 541-8057 Fax: (508) 541-8007 Email: gilligan@studentclearinghouse.org *Paul Taylor, Director, Mid-East Region – NJ, PA, OH, DE, DC, MD, WV, IN, KY Tel: (859) 363-0000 Fax: (859) 363-0700 Email: ptaylor@studentclearinghouse.org

Questback Boston LLC

QuestBack is a web-based tool for collecting, measuring and evaluating feedback from critical constituencies (students, parents, alumni, faculty, staff, etc.) via on-line surveys. The product supports a wide range of survey applications, from simple feedback processes to complex research projects, and makes it easy to get and share professional results.

OuestBack goes beyond data gathering and reports; the tool enables you to take follow-up actions with your survey respondents. You can segment, identify and communicate with selected respondents, engaging them in dialog to address issues or get more information. High-quality graphic reports can be easily published to the web for sharing with constituents. As a multi-user tool, QuestBack can support multiple groups across an organization sharing survey templates and best practices.

Applications: General student surveys (wide range of topics); Surveys of prospective students re: campus

visits, recruitment effectiveness, etc.; Event, meeting and project evaluations; Registrations / sign-ups for events; Surveys of alumni, faculty & staff. Showcase Monday, 11/3 @ 4:10 pm

For more information, contact Cedric Nash 978-975-2000

Gold Vendor Sponsors

Rapid Insight, Inc.

Rapid Insight Inc. has developed cutting edge software solutions for data analysis, data integration, and predictive modeling. Our software significantly impacts the ability of Higher Education Institutions to coordinate their data management, analytic, and reporting needs. Our [•] Rapid Insight primary goal is to enable Colleges and Universities to confidently make data driven decisions. Showcase Monday, 11/3 @ 11:30 am Simplifying data analysis

For more information, contact Didi Oxner, doxner@rapidinsightinc.com, 603-447-1944

Scantron Corporation

Scantron is a trusted provider of assessment and survey solutions for the higher education market. Scantron's software assessment product for higher education, ParSystem, helps instructors prepare, administer and score tests. Our online and paper-based survey solutions include Class Climate, for managing course evaluations; and eListen, to create, deploy and analyze surveys. For general forms processing, Cognition software collects handprint, machine print, and bubble mark data with more accuracy and reliability than manual data entry. Scantron combines these software products with its Evolution Series (ES) and Clarity line of scanners and world-class forms SCANTRON to produce end-to-end solutions for higher education. Showcase Sunday, 11/2 @ 2:15 pm

For more information, contact Daniel Raulli, 877-596-8366, Daniel_Raulli@Scantron.com

SPSS

SPSS Inc. develops software and provides services worldwide that help organizations understand their situation, consider options, predict what will happen and take actions to achieve maximum results. These predictive analytic solutions are delivered in an easy to integrate, open technology platform which turns an organization's data into a strategic asset improving student retention, alumni development, and more accurate environmental scanning. SPSS is rooted within Higher Education and has supported schools in just about every facet of analysis for nearly 40 years. Showcase Monday, 11/3 @ 3:30 pm

For more information, see http://www.spss.com

Taskstream

TaskStream empowers excellence and helps meet performance challenges through solutions that enhance community, collaboration and student-centered learning. Our Accountability Management System (AMS) provides an efficient, effective way to document, analyze, and manage performance across an entire campus. Our Learning Achievement Tools (LAT) provide innovative WebaskStream

based systems for portfolio-based learning and assessment, instructional design, and other tools that facilitate real-time instruction. Showcase Monday, 11/3 @ 2:15 pm

For more information, contact Webster Thompson, Executive Vice President, 800-311-5656

Tk20, Inc.

Tk20 was founded by experts in enterprise management in collaboration with senior university administrators and professors to create integrated, enterprise class education, assessment and reporting systems. We understand education – and we understand enterprise computing. That's why our customers repeatedly report that we offer the most complete assessment and management solution for colleges and universities available today. Showcase Monday, 11/3 @ 1:45 pm

For more information, contact Christine Trobenter, 512-401-2000

Advancing Educational Excellence

Silver Vendor Sponsors

Academic Management Systems

Build a "culture of evidence" on your campus with CoursEval[™] software. CoursEval[™] gives institutional researchers, deans, chairs, and faculty the means to create, deploy, and analyze peer and self-assessments, formative and summative assessments, as well as longitudinal and cohort assessments. Our remote portal tool, MyCoursEval, offers a dynamic interface between CoursEval and Blackboard, WebCT, Sakai, Online Course Evaluation and Moodle systems.

For more information, contact: Brian Hopewell, Director of Business Development - Higher Education *1576 Sweet Home Rd., Amherst, NY 14228 * 716-867-8434 * www.academicmanagement.com

Association for Institutional Research

The mission of the Association for Institutional Research (AIR) is to support members in their efforts to continuously improve the practice of institutional research for postsecondary planning, management and operations, and to further develop and promote the institutional research profession.

For more information, see http://www.airweb.org

Gravic. Inc.

Software for assisting researchers and evaluators collect and analyze data from paper and web forms including: Course evaluations, tests, alumni surveys, psychological assessments, satisfaction surveys and other other paper or web form. Use any word processor to create and print your own plain-paper evaluations and then scan them with Remark Office OMR using an image scanner. Or, create, host and administer online surveys using Remark Web Survey. Host your own online forms; there are no form or respondent limitations. Use both products to combine data from paper and web evaluations. Easily generate analysis reports and graphs with Remark Quick Stats, a built-in analysis component. Or, export data to 35 different formats (SPSS, Excel, ASCII, etc.). Free demos available at: http://www.gravic.com/NEAIR

For more information, contact the Sales Team Sales@gravic.com 1-800-858-0860

Nuventive

Nuventive is a leading provider of solutions for assessing, managing and demonstrating continuous improvement in education. Our enterprise suite of software solutions: TracDat for enterprise assessment management. Insight for communicating institution wide initiatives, and iWebfolio for electronic portfolio solutions,

equip individuals and organizations to better understand, assess, improve, and communicate educational quality.

For more information, contact Nuventive at 412-847-0280 or toll free 1-877-366-8700 www.nuventive.com

Silver Vendor Sponsors

OnlineCourseEvaluations.com

Our goal at OnlineCourseEvaluations.com is to improve the culture, quality and accessibility of course evaluations, by offering a customizable internetbased solution that will provide better information for higher education faculty and administrators to make data-driven decisions.

For more information, contact: James M March, Sales & Marketing Specialist <u>http://OnlineCourseEvaluations.com</u> 716-989-4400

Bronze Vendor Sponsors

Snap Surveys

Snap Surveys offers the complete survey solution for all your research needs. With over 27 years of experience and 30,000 users worldwide, few other providers offer the flexibility of both software and outsourcing options to give you a fully comprehensive package.

Snap Survey Software is a powerful, intuitive Windows-based program for questionnaire design, publishing, data collection and analysis. Snap supports all survey modes (Web, E-mail, Paper, Kiosk, Phone, PDA, Scanning, Tablet PC). Snap has robust analysis capability (Tables, Charts, and Descriptive & Multivariate Statistics) and is very extensible – MS Access or SQL database connectivity and seamless integration with SPSS and MS Office (Word, Excel, PowerPoint, Access).

Snap SurveyShop is the professional IT and research service for survey management and processing. We

are here to assist you with all aspects of survey work from advice on everything from research techniques, to questionnaire design, web surveys, data processing, report writing and consultancy.

For more information, please visit our website at: <u>www.snapsurveys.com</u> or contact one of our product specialists by phone: 603-610-8700 or e-mail: <u>sales@snapsurveys.com</u>

Systat Software, Inc

Headquartered in San Jose, California, Systat Software is a leading developer of specialized scientific software products for data analysis, technical graphing, and presentation. Systat Software's global reach across 37 countries is backed by technical support centers in key geographies such as the US, UK, Germany and India. For more information, visit www.sigmaplot.com

For more information, contact Greg Barton, 408-213-0884 or email at gbarton@systat.com

The Center for the Study of Higher Education at Penn State

The Center for the Study of Higher Education at Penn State, the nation's oldest and largest Center, has initiated a mostly on-line, Graduate Certificate Program for training institutional researchers. The Penn State certificate program includes courses in the Foundations of IR, Strategic Planning & Resource Mgt, Assessing Outcomes and Evaluating Academic Programs, Basic Applied Statistics, Multivariate Stat., Enrollment Mgt. Studies, Studies of Students and Student Affairs, Analyzing Faculty Workload, and Designing IR Studies. The Center also offers masters and doctoral programs in Higher Education, and engages in research that examines significant issues of practice and policy. The areas of current and

historic strength at the Center include studies of students and outcomes assessment, studies of access and opportunity, studies of faculty and curricula, studies of finance, governance, and accreditation.
