15th Annual Conference

STRATEGIC CHOICE:

Making Better Decisions Through Better Understanding of Institutions And Their Environments

The Omni Biltmore Hotel
Providence, Rhode Island
October 23–25, 1988
NEAIR OFFICERS
1987-88

President: Paige V. Ireland, Consultant, Management Dynamics

President-Elect: Ronald E. Doernbach, Director, Institutional Research, Dickinson College

Secretary: Larry Metzger, Director of Institutional Research, Ithaca College

Treasurer: Peter T. Farago, Associate Director, Planning and Research, Bentley College

1987-88 STEERING COMMITTEE MEMBERS-AT-LARGE

Althea J. Beck, Institutional Research Analyst, University of Connecticut

Wendall Lorang, Director of Institutional Research, SUNY Albany

Michael F. Middaugh, Assistant to the President, University of Delaware

Jennifer B. Presley, Associate Vice-Chancellor, Planning, University of Massachusetts/Boston

Richard Rugen, Assistant to the President, Kutztown University

Susan Shaman, Director, Institutional Research, University of Pennsylvania

IMMEDIATE PAST PRESIDENT

John A. Dunn, Jr., Vice President Planning, Tufts University

1988 CONFERENCE PROGRAM CHAIRMAN

Michael F. Middaugh, Assistant to the President, University of Delaware
1988 LOCAL ARRANGEMENTS COMMITTEE

Lenore A. DeLucia, (Chairman) Director, Institutional Research, Rhode Island College

Richard Prull, (Vice Chairman) Associate Director, Institutional Research, Rhode Island College

Georgia Bonaminio, Invaluable Secretary, Office of Institutional Research, Rhode Island College

Felice Billups, Director, Institutional Research, Rhode Island School of Design

William LeBlanc, Director, Institutional Research, Community College of Rhode Island

Kenneth Cedergren, Director, Institutional Research, Roger Williams College

Kathleen Massone, Assistant Director, Institutional Research, Bryant College

Joy Veaudry, Vice President for Administration, New England Institute of Technology

1987-88 NOMINATIONS COMMITTEE

John A. Dunn, Jr., (Chair) Vice President Planning, Tufts University

Robert Glover, Director Planning and Institutional Research, University of Hartford

Janyce Napora, Assistant Vice President Management and Fiscal Affairs, University of Massachusetts

Ann A. Weeks, Director, Institutional Research, Dutchess Community College

1987-88 PUBLICATIONS

Jennifer B. Presley, Associate Vice-Chancellor, Planning, University of Massachusetts/Boston
Sunday, 23rd SUNDAY AFTERNOON

12 Noon - 5 PM REGISTRATION 2nd Floor Balcony

NEAIR 1988 ANNUAL CONFERENCE PROGRAM

Sunday, October 23

11:15 - 12:30 PM President’s Brunch L’Apogee #7

Steering committee, conference workers, and workshop presenters.

12:00 Noon - 5:00 PM Registration 2nd Floor Balcony

12:30 - 3:30 PM PRE-CONFERENCE WORKSHOPS

Pre-registration required. Workshops are formal professional development training sessions conducted by leaders in the field. The $25 fee includes the cost of materials.

Newcomers to Institutional Research State B

Michael F. Middaugh, Director of Institutional Research and Planning, University of Delaware.

This workshop is designed to give new practitioners in institutional research a hands-on approach to getting started in the field. Using a carefully designed manual of instructional materials, workshop participants will walk through a series of exercises designed to address such issues as: How to ensure data integrity; developing factbooks and reports that are read and used by college presidents; defining critical issues for instructional research at your college or university; identifying sources of data; conducting survey research; using personal computers and commercial software in institutional research and strategic planning; developing forecasting models. The workshop will also address the political pitfalls in institutional research, and will discuss how the new practitioner can effectively link his/her office with the strategic planning/decision making center at their institution.

Test Development Workshop State A

Linda A. Suskie, Assistant to the President for Planning, Millersville University of Pennsylvania.

Topics discussed include clarifying your testing needs, the pros and cons of published and "homemade" tests, the merits of essay and multiple choice formats, identifying potential tests, interpreting test scores, and what "validity" and "reliability" mean. Actual tests that might be used in assessment programs are evaluated by participants.
Statistics Refresher for the Real World           Rhode Island College

Dr. Marian N. Steinberg, Director, System Research and Planning, Connecticut State Technical Colleges.

This workshop will review basic descriptive and correlational statistics commonly used in developing institutional research studies. Matching the proper statistic to the research design and interpreting and analyzing the data in a manner understandable to busy managers will be the focus of this presentation. Participants will work on personal computers using LOTUS spreadsheets.

Participants should meet in the hotel lobby at 12:30. Bus transportation will be provided to Rhode Island College.

3:30 - 5:00 PM          CONTRIBUTED SESSIONS

PRESENTATION      Fact Books: A Few New Twists           State C

Thomas E. Gusler, Clarion University; John Jacobsen, PA State System of Higher Ed; and Linda Swab, Clarion University, PA

This session will center on two types of fact books. The first type is similar to the traditional paper-based fact book but with a few unique twists. The second type is a fact book that uses SAS as the basic software and is shared by fourteen institutions via PROFS technology.

TRACK I: ENROLLMENT MANAGEMENT - MARKETING           State A

Moderator: Dawn G. Terkla, Tufts University

A Comparative Analysis of Community College Administrators’ and Adult Evening Credit Course Students’ Attitudes Toward College Programs, Services and Environment in a Theoretically Formulated Marketing Context

Peter J. Murray, SUNY Central Administration, Albany NY

A Framework for marketing is described. Principle elements of marketing are used in this study to analyze and evaluate the degree of congruence between the perceptions of those in administrative role positions to those of adult evening students with respect to the attitudes of adult evening students toward programs, services and environment in community colleges.
The Use of Census Data to Identify New Student Markets

Dr. Donald L. Coan and Dr. Richard Nigro, Neumann College, PA

This paper explores the application of geo-demographic methods using census data to identify new student markets. This analytical approach can be useful in identifying geographic areas for marketing intervention, clarifying questions related to matching institutional mission to new external environments, and preparing needs surveys of prospective student populations.

A Model Program to Assess a College's Impact by Census Tract

Arnold J. Gelfman and J. Robert Banacki, Brookdale Community College, NJ

In this era of declining enrollments, it is even more important that colleges adapt new techniques to identify the changing marketplace. This program will show how Brookdale Community College used census tract matching to determine its impact throughout its county.

The Role of Institutional Research in Maintaining Academic Standards During a Period of Declining Enrollments

Robert M. Karp, North Country Community College, Saranac Lake, NY

This paper summarizes the efforts of an institutional research office to focus attention on academic standards during a period of declining enrollments. A summary on the extraction and presentation of longitudinal data will be discussed, as well as the effects that the exercise had on institutional mission, philosophy, standards, and delivery services.

Strategic Decision Making in the Context of Shared Governance

Dr. Nathan Weiss and Dr. Henry Ross, Kean College of New Jersey

The twin issues of institutional integrity and accountability, as they relate to the process of governance, are the focus of this paper. How can decision-making best be shared while retaining a clear vision of institutional mission? This paper uses both literature and practice in addressing these questions.
3:30 - 5:00
Sunday Afternoon, continued

CONTRIBUTED SESSIONS

TRACK IV: POLICY - STRATEGIC CHOICES

Use of Demographic and Financial Projections in the Development of a Strategic Long-Range Plan

Richard Hoffman, Michael McGuire, and Jane Anderson, Franklin and Marshall College, PA

Faced with a projected steep decline in the number of traditional applicants in the next decade, Franklin & Marshall College made a strategic decision to reduce the size of its student body while maintaining or increasing both the selectivity of the admissions criteria and the financial resources needed to enhance program quality. This paper outlines the planning information used to support this decision, and its effect to date.

Information for Planning: Campus Perspectives and Practices

Frank A. Schmidlein and Toby H. Milton, University of Maryland

This paper examines campus practices and perspectives related to collecting, analyzing, and disseminating data for institutional planning. These findings were obtained through a nationwide study conducted by the National Center for Postsecondary Governance and Finance. The study revealed differences between assumptions about data use in planning and realities at campuses.

Sunday Evening

-------------

5:00 - 6:30 PM Social Hour Bacchante Room

6:30 - 8:30 PM Dinner and Welcoming Address Garden Room
Speaker: Harvey R. Stone, Ph.D.
Special Assistant to the President for Economic Development, University of Delaware

8:30 PM - ? Cocktails and Conversation Stanford's Lounge (Cash Bar)
Monday, October 24

7:00 - 9:00 AM  COMPLIMENTARY COFFEE AND DANISH  Bacchante Room

8:00 - 9:00 AM  SPECIAL INTEREST GROUPS:

SUNY AIRPO  Salon 3
Convener: Jeffrey Dutton, SUNY at Buffalo

TUFTS/EDUCOM  Salon 7
Convener: John A. Dunn, Jr. VP Planning, Tufts University

8:00 - 12:00  REGISTRATION CONTINUED

9:00 - 12:00  GENERAL SESSION  Garden Room

State University of New York at Albany

"Making Better Decisions through a Better Understanding of
the Organization and its Environment."

Monday Afternoon

12:00 - 1:30 PM  LUNCH  Grand Ballroom
including Annual Business Meeting

1:30 - 3:00 PM  PANEL  Foyer

Assessment at Albany - The Impact of College Experiences on Students
and Alumni

J. Frederick Volkwein, Wendell G. Lorang, and Laurie Webster-Saft, Marious H. Agrotes, SUNY-Albany

This presentation illustrates the ways Albany is using its
Assessment Data Bases. The results of several outcomes studies
will be presented as examples: attrition/retention/achievement
analyses for several student sub-populations; freshman to senior
year change in student values, attitudes, and intellectual growth;
and alumni satisfaction, success, and gift giving patterns
differentiated by major field of study.
Student Characteristics and Admissions Rates at 70 Private, Four-Year Institutions

Jennifer Mauldin, Tufts University, MA

This study explores the relationship between student and institutional characteristics and retention rates at 70 private, residential four-year institutions. Variables examined include student demographics, background characteristics, and attitudes plus institutional factors of size, financial aid policies, co-educational status and total resources. Data sources for the study are Cooperative Institutional Research Program (CIRP) survey responses and institutional profile data from the Tufts-EDUCOM Data Sharing Project. The Project consists of approximately 105 colleges and universities that share financial, enrollment and other types of management data.

Institutional Images: Factors Affecting the Student Enrollment Decision Process

David J. Costello, Suffolk University, MA

The image that an institution sends to the academic marketplace may impact the student enrollment decision process. A clear, well marketed image may increase a university's enrollment numbers. Conversely, a mixed or a muddled image may lead to enrollment declines. This paper uses survey data to measure the effect of "institutional images" on the student enrollment decision process.

Post Baccalaureate Plans: Factors that Influence Graduate School Selection

Dawn Geronimo Terkla, Tufts University, MA

This paper will examine three specific aspects of graduate school selection: (1) the major factors in the applicants' selection of a graduate school; (2) the influences of specific sources of information on the graduate school selection process; and (3) the major attributes that differentiate between matriculants and non-matriculants.
When is it Going to Stop?  A Speculation on Tuition Rates at One Private University
John A. Dunn, Jr., Tufts University, MA

Reviewing thirty years of national and institutional data, the author looks for reasons for the sharp tuition rise from 1980 on, and wonders whether self-imposed enrollment restrictions might not be largely responsible.

The Interactive Effect of Concern about Price on College Choice
Yuko Mulugetta and Susan H. Murphy, Cornell University, NY

The study investigated how the concern about education price interacts with other variables in the student's enrollment decision-making process. Multiple discriminant analysis revealed that academic ability was a significant determinant regardless of the level of price concern, while a cost-related factor (distance from home) had a significant impact only in the group with high level of concern.

Trends in Student Aid: 1980 to 1988
Gwendolyn L. Lewis, The College Board

Symbiosis: Community College - High School Partnership
Dr. Alan J. Sturtz, South Central Community College, CT

The purpose of this study is analysis of the effectiveness of the SCCC High School Partnership Program with regard to enrollment from service area high schools, enrollment of seniors and juniors from the different schools (including sex/ethnic data), diversity of courses selected and grades awarded, and enrollment/student flow trends among program participants.
Institutional Responses to State Mandate for Outcomes Assessment: Strategic Choice Based on Rationality, Bureaucracy and Politics

Angela C. Suchanic, Trenton State College, NJ

Institutional researchers are increasingly expected to respond to mandates for outcomes assessment. This paper proposes that, in responding, institutions make strategic choices based on rational decision-making and bureaucratic and political forces. By understanding these forces, institutional researchers can fulfill their responsibilities more effectively and potentially help shape the institution’s response.

Providing Distributed Access to Student Data Through the Use of an Integrated Data Base System

Dianne P. Bills and Joellen S. Shaffer, RIT/NITID, NY

The purpose of this presentation is to describe the use of INGRES, an Integrated Data Base Product, to provide academic department members the ability to access institutional registration information while having the flexibility to use the system to store department specific information. Such an on-line system permits the people who interact with a student to share information in a real time environment. In addition, the system can be used to ‘flag’ students who are having problems in the college environment and perhaps to avert later attrition.

Gender Differences in Freshman Performance and Their Relationship to Use of the SAT in Admissions

Ellen Armstrong Kanarek, Rutgers University, NJ

Despite a 60-point deficit in total SAT, freshman women at a large public university perform significantly better than men in both total CUM and GPA in humanities and social science courses. Because GPA differences are greatest for high SATs, underprediction for women is of most concern for scholarship selection.
3:00 - 4:30
Monday Afternoon, continued

TRACK I: ENROLLMENT MANAGEMENT - ADMISSIONS

Admissions Standards and the Under-Prepared Student in an Urban Context: How Institutional Research is Helping to Frame the Debate

Jennifer B. Presley and Peter Langer, University of Massachusetts at Boston

This presentation will describe how institutional research at UMass/Boston is informing the institutional debate with regard to the underprepared student and admissions standards. Results will be presented from a study of the relationship between admission characteristics, placement on basic skills tests, and subsequent performance at UMass/Boston, as well as a description of the policy context before and after the study.

A Strategic Planning Model for Admissions

Anthony Lolli, University of Rochester, NY

This session will introduce a strategic planning model which helps identify new admissions recruitment opportunities. For researchers not familiar with admissions operations, the model also promotes an understanding of the existing recruitment portfolio. The model meets these objectives by uncovering opportunities resulting from the intersection of five dimensions: resources, market types, student segments, information recipients and recruitment chronology.

TRACK II: ADMINISTRATIVE - COST STUDIES

Moderator: Wendell Lorang, SUNY at Albany

Faculty Salary Equity: Integrating Policy and Practice Through Decision Support

Jeffrey E. Dutton, SUNY-Buffalo, and Kathleen K. Bissonnette, West Virginia University

The social ideal of salary equity challenges higher education to institute procedures to ensure equity rather than to defend against inequities. The regression analyses and accompanying reports described in this paper were designed specifically for decision support, i.e., to monitor salary equity, support for salary decisions, and integrate policy and practice.
3:00 - 4:30
Monday Afternoon, continued

CONTRIBUTED SESSIONS

TRACK II: ADMINISTRATIVE - COST STUDIES

John A. Dunn, Jr. and Audrey Adam, Tufts University, MA

The paper summarizes the findings of a set of recent studies on fund-raising costs, staffing, and proceeds for 15 universities and 30 colleges. It describes trends in total and in alumni support, and gives new data on the relative importance of large gifts, the cost per dollar raised, and the patterns of staffing.

The Use of Microcomputer in Discipline Cost Analysis

Koosappa Rajasekhar, Dundalk Community College, MD

The Discipline Cost Analysis is one of the valuable tools of college administrators for making decisions of both short and long-term significance. The cost per course, cost per student credit hour, and the cost per full-time equivalent student by discipline can be analyzed using LOTUS 1-2-3 with a personal computer. The microcomputer approach provides flexibility in preparing the cost data and serves as a tool for "what if" scenarios looking at past trends and future discipline and cost projections. A step-by-step approach of determining the unit cost is discussed.

TRACK II: ADMINISTRATIVE - ALUMNI

State B

Moderator: Richard Rugen, Kutztown University

Alumni Research in Practice: Assessment of the College and Post-Graduate Experiences

Crane Willemsen and Mary Ann Coughlin, Smith College, MA

This paper presents the research of Smith College’s Alumnae Biography office, which maintains and reports on several data bases of over 27,728 student and alumnae respondents. Biographical and statistical information provides data for the study of employment and graduate study patterns, and the assessment of academic and social experiences of women’s undergraduate education.
3:00 - 4:30  
Monday Afternoon, continued  
CONTRIBUTED SESSIONS

TRACK II: ADMINISTRATIVE - ALUMNI

The Development and Application of an Individually Tailored Alumni Follow-up System

William A. Welsh and Gerard G. Walter, National Technical Institute for the Deaf

The process through which an institutional research office constructs a questionnaire tailored to individual alumni respondents is described. The utility of the individual alumni data for admissions recruiting, development activity, program planning, and other institutional activities is described.

Using Perceptions of Educational Outcomes to Predict Alumni Involvement

Dr. Robert C. Froh and Dr. David B. White, Syracuse University, NY

This session will present the results of an alumni outcomes survey project that enabled alumni programs, development and academic administrators to determine alumni perceptions of the quality of academic and alumni programs, and to relate these perceptions to indicators of alumni involvement such as annual giving and participation in alumni reunions.

TRACK III: STUDENT RESEARCH - WRITING/COUNSELING  

Moderator: Webster Trammell, Brookdale Community College

The Impact of Special Counseling and Academic Services on Disadvantaged Students

Marion Walker, Corning Community College, NY

Research on a grant project to provide special counseling and academic services to disadvantaged students at Corning Community College showed Special Services Students performed significantly better than the control group on GPA, retention, graduation, math and English. The rates were also higher than the overall college group on retention and graduation.

Assessment of Freshmen Writing Skills: Faculty Concerns and the Principles of Measurement

Zandra S. Goldberg Gratz, SUNY-Farmingdale

The efficiency and accuracy of several writing placement measures is described. In particular, the essay, high in face validity and faculty support, is compared to a multiple choice tool which sports superior reliability and predictive validity. A two stage placement program capitalized on the strengths of each device.
3:00 - 4:30
Monday Afternoon, continued

CONTRIBUTED SESSIONS

TRACK III: STUDENT RESEARCH - WRITING/COUNSELING

A Comparison of Two Methods for Placement in Developmental Writing Courses

Kathleen Keenan, Massasoit Community College, MA

A study conducted by Institutional Research, with faculty participation, compares standardized tests with holistically scored essays as placement instruments for introductory writing classes. In addition, the project demonstrates the value of collaboration with faculty in research to achieve credibility for results and to inform academic policy change.

4:30 - 5:00
DEMONSTRATION

A PC Factbook

Denise A. Krallman
State University of New York at Buffalo

The purpose of this PC demonstration is to share a method of automating a factbook for use by institutional researchers. Using a menu-driven LOTUS spreadsheet, the factbook system has been developed to allow users to move away from hard copy printouts, tables, and informal verbal requests, to a more systematic, work-command approach to the PC as ultimate data source.

Monday Evening

SPECIAL EVENT

CELEBRATE PROVIDENCE

5:30 - 5:45
Meet in the hotel lobby to begin a walking tour of the downtown financial district.

6:30 - ??
Cocktails, Dinner and Surprise Entertainment

Turk's Head Club
Tuesday, October 25

7:00 - 9:00 AM  COMPLIMENTARY COFFEE AND DANISH  2nd Level Balcony

8:00 - 9:00  Steering Committee Breakfast  Cafe on Terrace

9:00 - 12:00  Conference Workshops

Newcomers to Institutional Research  State B

Michael F. Middaugh, Director of Institutional Research and Planning, University of Delaware.
(Repeated from Sunday Afternoon; prior registration required)

Test Development Workshop  State C

Linda A. Suskie, Assistant to the President for Planning, Millersville University of Pennsylvania.
(Repeated from Sunday Afternoon; prior registration required)

Ethical Issues Workshop  Foyer

Robert F. Grose, Amherst College; William Lauroesch, University of Massachusetts-Amherst; Sandra J. Price, Smith College; Michael E. Schiltz, Loyola University of Chicago; Jay A. Halfond, Northeastern University

The workshop sponsors seek to draw from the experience of conference attendees insights into the nuances of difficult and sensitive ethical problems in the practice of institutional research issues. Extensive discussions will follow brief presentations. Several short case studies will be available at the opening of the conference, and attendees are encouraged to obtain and read them. Willingness to participate is the sole qualification for attendance.

9:00 - 10:15
Tuesday AM  CONTRIBUTED SESSIONS

TRACK IV: ORGANIZATIONAL THEORY  State A

Moderator:  Jennifer Presley, University of Massachusetts/Boston

Teaching Institutional Research to the Reluctant Institution
Mark Bagshaw, Clark University, NY

Assisting institutional leaders to learn to value and use institutional research is as important to the successful researcher as technical and interpretational competence. This paper looks at the organizational learning process, sources of resistance in colleges and universities, and some remediation strategies.
Examination and Analysis of Planned Organizational Change in Higher Education Using an Enhanced Normative Systems Model

Betty Millin and John Terry, University of Lowell, MA

Examination and analysis of the application of an enhanced normative systems model of planned change in a higher education setting suggests a practical participative model for planned change which is highly applicable for institutions of higher education.

TRACK II: ADMINISTRATIVE - FACULTY

Demographic Analysis of Connecticut’s State Technical College System Faculty and Professional Staff: Potential Retirements and Estimated Costs

Dr. Marian N. Steinberg, Director, System Research and Planning, CT State Technical Colleges.

This research was carried out to determine the extent and potential cost of retirements. Distribution by unit for age, years of service, sick and vacation accruals are described. Potential retirements are projected based upon the provisions of each of three retirement plans, including costs and effect by unit and department.

Montgomery College Part-time Faculty: Who? Why? What?

D. A. Hemerway and Ruth S. Garies, Montgomery College, MD

Both administrators and full-time faculty need to know more about the part-time faculty recruited each semester. Too frequently they regard their needs as conflicting and cooperation as impossible. This paper reports the success of one community college in overcoming this barrier and presents the results of its survey of part-time faculty.
Implicit Factors in Rates and Proportion: A Look at Undergraduate NonSuccess

Joseph C. Lanni, Montgomery College, MD

University X's undergraduate applicants for graduation failed to graduate in the designated semester in approximately one-third of the cases. It was determined that a number of implicit factors were combined in an aggregated error formation. Recommendations for screening applications for graduation and interpreting educational rates and proportions were submitted.

Factors Which Affect Retention of Adult Learners During the First Year of Graduate-Level Study

Christine A. Oatis, University of Lowell, MA

This study investigated perceptions and persistence patterns of adults who enrolled in graduate courses for the first time at a mid-size, public university. Statistical analyses of questionnaire responses revealed differences according to age cohort as well as race and full-time/part-time status among those who persisted into the second semester and those who did not persist.

An Analysis of the Student Persistence and Attrition Process: An Urban College Perspective

David J. Costello and Barbara Pfeiffer, Suffolk University, MA

As many colleges and universities face declining applicant pools they are turning toward the issue of retention as the means to stabilize enrollment numbers. This paper uses a log-linear approach to understanding the persistence and attrition issue. The singular and combined effects of three independent variables (race, program of study and academic achievement) are measured as to their effect on student persistence.
This study was designed to examine which factors may underlie a student's decision to use the college infirmary or local hospitals for health care needs. It is postulated that the issues of quality of care and individual privacy are central to utilization rates. This paper presents data in support of that hypothesis.

A Comparison of Attitudes of White College Students toward Black College Students in 1982 and 1987

Robert J. Bisantz and Richard J. McCowan, SUNY-Buffalo

The presentation compares the results of two surveys that examined attitudes of white college students toward black students in 1982 and 1987. A brief review of the literature and a description of the procedures followed in developing the Bogardus social distance scale used in the study is included.

An Analysis of Factors Related to Student Learning Outcomes

Jean Morlock, Tom Moran, Tom Gonyea and Diana Green, SUNY-Plattsburgh

Research suggests that variables related to faculty/student relationships, student peer interactions, and the quality of student effort are likely to have significant impact upon student learning. This study empirically identifies factors related to these broad constructs. The study also analyzes the relative importance of these factors in influencing student learning.
CENTRAL PROVIDENCE

**Denotes National Historic Landmark  *Denotes National Register

1. CITY HALL (1675-1878) (*) (H-1) Kennedy Plaza. Designed in the manner of the Louvre and Tuileries Palaces, Paris. Mon-Fri, 8:30-4:30, July-Aug, 8:30-4, Closed holidays. 421-7740

2. ARCADE, THE (1828) (*) (H-1) 65 Weybosset St. Greek Revival structure houses the oldest indoor shopping center in the country. Features shops and international cuisine. 456-5463

3. BROWN UNIVERSITY (Chartered 1764) (*) (H-3) Prospect & College Sts. 7th oldest in America. University Hall (1770), used as barracks by American and French troops during Revolution. Tours 863-2378.

4. CATHEDRAL OF ST. JOHN (1810) (H-1) 271 North Main St. One of four original Colonial parishes in State. Historical graveyard adjacent. Mon-Fri, 9-4, Sun, 7-300-1, 331-4622.

5. CATHEDRAL OF SS PETER & PAUL (1878-1889) (*) (H-1) One Cathedral Sq. Brownstone Gothic Revival massed towers flanking large rose window. Mon-Fri, 9-9, Sat, 9-5, Sun, 8-8. 331-2434

7. FIRST UNITARIAN CHURCH (1816) Benefit & Benevolent Sts. Steeple houses largest and heaviest bell cast by Paul Revere & Son. 421-7970.

8. JOHN BROWN HOUSE (1786) (*) (H-1) 52 Power St. Elegant Georgian mansion. RI Historical Society Headquarters. Tues-Sat, 11-4; Sun, 1-4. Closed holidays. Jan & Feb 3rd weekends by appt. only. 331-8575

10. JOHN D. ROCKEFELLER, JR. LIBRARY (H-1) Prospect & College Sts. (Brown University). Mon-Thurs, 8:30 a.m.-midnight; Fri, 8:30 a.m.-10 p.m.; Sat, 9 a.m.-10 p.m. Sun, noon-midnight. Summer & holiday hours, 9-5. 863-2167.

11. MARKET HOUSE (1773) South Water & College Sts. Focal point of market place of Colonial Providence. Upper floors used as Revolutionary War barracks. 331-3511.

13. OLD STATE HOUSE (1762) (*) (H-1) 150 Benefit between N & S Court Sts. RI Declaration of Independence signed here May 4, 1776, two months before that of the 13 Colonies in Philadelphia. Mon-Fri, 8:30-4:30. 277-2678.

14. PROSPECT TERRACE Congdon at Cushing St Site of Roger Williams Monument (statue) Panoramic view.

15. PROVIDENCE ART CLUB (1876-1791) 11 Thomas St Clubhouse & galleries in two Colonial buildings. Mon-Fri, 10-4, Sat, noon-3. Sun, 3-5. 331-1114

16. PROVIDENCE ATHENAEUM (est 1753) 251 Benefit St One of nation's oldest library companies. Greek Doric temple design built 1838. Mon-Fri, 8:30-5:30, Sat, 9:30-5:30 (except in summer). 421-8970.
